COMPANY OVERVIEW

Fullstom Industries Limited

(previously operating as Fullstorm Enterprises) is a premier, full-service contracting and construction firm based in Nairobi, Kenya.

We specialize in end-to-end delivery across design, building construction, technical consultancy, and comprehensive project management.

We bridge the gap between creative architectural concepts and structural reality. By blending modern aesthetics with robust engineering, we deliver high-end residential, commercial, and hospitality fit-outs tailored to the unique demands of the East African market.

OUR CORE PILLARS

Our seamless project delivery pipeline covers **every phase** of development:

DESIGN & CONCEPTUALIZATION

BUILDING & CONSTRUCTION

CONSULTANCY

PROJECT MANAGEMENT

SPECIALIZED SCOPE OF WORKS & FINISHES

We pride ourselves on technical versatility, utilizing premium materials to deliver precision finishes:

Architectural Metalwork & Structures

- **Stainless Steel Works:** Custom fabrications, handrails, balustrades, and architectural accents engineered for durability.

- **Pergolas:** Elegant outdoor timber and steel overhead structures for residential and hospitality spaces.

- **Aluminum & UPVC Systems:** High-performance aluminum windows, doors, folding glass doors, and low-maintenance UPVC window systems.

Interior Fit-Outs & Joinery

- **Ceiling Systems:** Custom gypsum texturing, ambient bulkheads, and ceilings engineered for sound isolation and commercial styling.

- **Custom Joinery:** Premium, tailor-made kitchen cabinets and modern fitted wardrobes maximizing spatial utility.

- **Glass Installations:** Frameless office partitions and sleek, modern tempered glass shower cubicles.

Surface Finishes & Masonry

- **Tiling & Floor Coverings:** Precision placement of ceramic, porcelain, and specialized tile works.

- **Paint & Decor:** High-grade interior and exterior paint applications, textured wall coatings, and refined decorative finishes.

**QUALITY
MATERIALS**

**EXPERIENCED
PROFESSIONALS**

**PRECISION
DELIVERY**

**CUSTOMER
SATISFACTION**

The Fullstom Process

We maintain strict quality control by following a structured, 8-step project lifecycle:

Customer Engagement

Initial consultation to establish project scope, aesthetic preferences, budgetary parameters and architectural vision.

Site Survey & Measurements

Scheduling logical site logistics and physical assessment to evaluate terrain and environment.

Site Visit Arrangement

Scheduling logical site logistics and physical assessments to evaluate terrain and environment.

Design Plan & 3D Review

Developing spatial design plans and interactive 3D renderings showcase the finished space.

Site Survey & Measurements

Taking precise physical measurements and structural survey to eliminate spatial errors.

Design Approval

Final modifications, structural sign-off and client approval on the architecture and aesthetic direction.

Design Plan & 3D Review

Developing spatial design plans and interactive 3D renderings to showcase the finished space.

Quotation & Work Schedule

Drafting detailed, transparent material breakdowns and strict project timelines.

Fit-Out & Execution

Deploying specialized technicians, fabricators and engineers to begin construction.

Handover & Review
